Output: Screenshot:

The screenshot shows a web application interface. At the top, there is a browser address bar with the URL `https://localhost:44392/leave.aspx`. Below the address bar, the page title is "Leave Details". The form contains the following fields:

- Username: student
- Student Name: Sidhu
- Leave Date: 01-09-2026
- Leave Type: Medical Leave
- Reason: Sick Leave

Below these fields is a "Logout" button. The page then transitions to a "Welcome student" section. In this section, there is a text input field for "Student Name" containing "Sidhu Kumar". Below this is a "Date:" label followed by a calendar widget for "September 2026". The calendar shows the following dates:

Mon	Tue	Wed	Thu	Fri	Sat
21	2	1	3	4	3
7	8	9	10	11	12
14	15	16	17	18	19
21	22	23	24	25	26
38	29	30	1	2	3
5	6	2	8	9	10

Below the calendar is a "Type:" label followed by a dropdown menu showing "Medical Leave". At the bottom, there is a text input field for "Reason:" with the text "Leave" entered.
